AUDITORS

(1) Appointed on 28 April 2006; office expires with the shareholders' meeting for the approval of the 2008 financial statements.

(2) Appointed on 28 April 2006; office expires with the shareholders' meeting for the approval of the 2008 financial statements; on 6.12.2007 the Substitute Auditor, Cesare Brena, resigned from his position.

The Chairman and Managing Director of the parent company CAD IT S.p.A., Giuseppe Dal Cortivo, is authorised to perform all ordinary and extraordinary administrative duties, excluding only those which can not be delegated by law and those assigned to the Board of Directors by article 19 of the company by-laws.

The main powers reserved in the statute to the Board of Directors are: the examination and approval of the strategic, industrial and financial plans of the company; the purchase, sale, exchange or transfer of fixed assets and real estate rights; the granting of collateral on fixed assets; the set up of new subsidiaries and the take-over, acquisition or sale of corporate investments; the acquisition, sale, exchange or transfer of the whole company or of business lines; the underwriting of obligations, commitments and responsibilities which, either singularly or jointly with other connected negotiations, come to more than €4,000,000; the nomination of managing directors; the release of warranties and real or personal guarantees of any kind to the sum of more than €2,000,000 for each individual transaction and, if in the interest of subjects other than the Company and its subsidiaries, to any sum whatsoever; the examination and preventive approval of significant transactions including those with company related parties and company subsidiaries; verification of the appropriateness of the administrative and organisational structure and the general accounting, the internal control system and any conflicts of interest.

The managing directors, Giampietro Magnani and Luigi Zanella, will have full ordinary administrative power including the faculty to prepare reports and to order banking transactions, within the limits of account availability and credit worthiness, with the power to act alone with their single signature to the maximum amount of Euro 1,000,000 (one million) for each individual transaction and with the joint signature of another managing director for amounts exceeding Euro 1,000,000 (one million) up to a maximum of Euro 3,000,000 (three million) for each individual transaction. Moreover, each of them will also be authorised to acquire and/or sell registered moveable assets with their single signature.

The Managing Director Paolo Dal Cortivo is authorised to represent the company before the institutional investors and the shareholders, and before Borsa Italiana S.p.A., the Italian Stock Exchange company, and Consob. The Managing Director, Paolo Dal Cortivo, on behalf and in the interests of the Company, is responsible for the drawing up and signing of contracts with clients for the supply of goods and/or services up to the amount of € 500,000 per contract.

The Managing Directors are authorised to represent the company to the extent, and within the limits, of the proxies received.

CAD IT Group at 31/12/2007

DIRECTORS' REPORT ON MANAGEMENT

This Directors' report on management is attached to CAD IT's consolidated report at 31/12/2007 and shows and explains the main aspects of the Group's consolidated profit and loss account and the consolidated patrimonial-financial situation.

The CAD IT S.p.A. consolidated balance has been drafted in accordance with the international accounting standards (IAS/IFRS), as required by regulation no. 1606 and adopted by the European Union in 2002.

Unless otherwise indicated, the monetary amounts in the accounting tables and those referred to in the comments are shown in thousands of Euros.

Activities of the Group

CAD IT is the leader of a group that is one of the most dynamic organisations in the Italian information technology sector.

For almost 30 years, the Group has been dealing with the banking and insurance market and the world of business and public administration by offering software solutions, maintenance, personalisation, integration and other correlated services from application management to outsourcing, consultancy to training.

The CAD IT Group operates in Italy with its own branches and Group companies. Its Head Office is in Verona but there are other units in Milan, Rome, Florence, Bologna, Mantua, Prato and Trento.

CAD IT is leader in the Italian software market for the banking sector with its main product, Financial Area, a programme which completely manages all functions connected to negotiation, settlement and administration of security transactions, debentures, derivatives (in any currency) and adopted by 60% of Italian banking outlets.

In addition, the Group boasts long-standing activity in the industrial sector and the capacity to offer solutions for e-business, credit and industrial companies in constant evolution.

Solutions for public administration make up the newest sector but they capitalize the Group's traditional abilities like its 20-year experience in developing computer systems for public body.

Summary of the Group results

| | Period 2007 01/01 - 31/12 | | Period 2006 01/01 - 31/12 | | Variazioni | |
|--|------------------------------|--------------|------------------------------|-------------|--------------|---------------|
| | | | | | | % |
| Production value | 60,696 | 100.0% | 52,243 | 100.0% | 8,453 | 16.2% |
| Added value | 48,652 | 80.2% | 41,062 | 78.6% | 7,590 | 18.5% |
| Gross operational result (EBITDA) | 15,155 | 25.0% | 9,042 | 17.3% | 6,112 | 67.6% |
| Operational result (EBIT) | 12,649 | 20.8% | 7,380 | 14.1% | 5,269 | 71.4% |
| Ordinary result | 12,868 | 21.2% | 7,536 | 14.4% | 5,332 | 70.8% |
| Pre-tax and pre-third party share result | 13,861 | 22.8% | 7,563 | 14.5% | 6,297 | 83.3% |
| Income taxes | (5,316) | (8.8%) | (4,303) | (8.2%) | (1,013) | 23.5% |
| Third party (profit)loss for the period | (576) | (0.9%) | (300) | (0.6%) | (277) | 92.3% |
| Profit (loss) for the period | 7,968 | 13.1% | 2,961 | 5.7% | 5,008 | 169.2% |

Analysis of the consolidated income results

The CAD IT Group closed its 2007 financial period with an improvement in production revenues and income margins compared to 2006. The results achieved highlight the Group's ability to obtain positive results by focusing on production and offering new products and services and by acquiring new users and new market segments.

Profits for the period stand at Euro 7,968 thousand compared to Euro 2,961 thousand in 2006, showing an increase of 169.2%.

This improvement in profits is mainly due to an increase in production revenues during the financial period (+16.2%), which in turn is due to higher income from sales and services (+22.2%) which reached Euro 58,256 thousand (Euro 47,669 thousand in the previous year) correlated with lower resource allocation to new product development activities, which were contained, in accordance with the Company programme, at Euro 2,335 thousand compared to Euro 4,406 thousand in 2006 financial period (-47.0%).

Added value rose to Euro 48,652 thousand compared to Euro 41,062 thousand in the previous period, increasing the high marginality to 80.2% (78.6% in the year 2006).

Income margins, EBITDA (+67.6%) and EBIT (+71.4%), were decidedly greater, standing at Euro 15,155 thousand and Euro 12,649 thousand respectively compared with Euro 9,042 thousand and Euro 7,380 thousand in the previous year, proof of the constant care taken in monitoring and cost containment.

Labour costs in the year 2007 came to Euro 30,999 thousand, Euro 1,329 thousand higher (+4.5%) than the year before. Labour costs include the difference resulting from discounting back TFR amounts, as a consequence of the recent reform, in respect of the previous value recorded at 31st December 2006, accounted for as a reduction of a definite benefit plan, in accordance with paragraph 109 of IAS 19.

Amortization and funding of the year 2007 came to Euro 2,506 thousand compared to Euro 1,663 thousand in 2006 financial period. The increase is mainly due to a growth in intangible asset amortizations arising from the start up of an amortization plan for internally developed and completed software procedures, in execution of programmed investment plans.

The balance between income and expenses was, as always, in credit by Euro 220 thousand (previously Euro 157 thousand).

Other positive aspects of the year in question are the trend of the appreciation and depreciation entry for profits from assets available for sale (including the amount previously registered in the specific appreciation fund), which generated appreciation to the value of Euro 894 thousand, and the positive outcome of investments connected to Sicom S.r.l. which generated a Euro 98 thousand appreciation.

The pre-tax result and third party share came to Euro 13,861 thousand (+83.3%) compared to the Euro 7,563 thousand of the previous period.

Income taxes amount to Euro 5,316 thousand compared to Euro 4,303 thousand in the previous financial period and show a lesser incidence, above all due to the effect of adjusting deferred taxes after the reduction of tax rates as of 2008.

The Group's Net Financial Position at 31st December 2007 was in credit by Euro 11,796 thousand, increasing (+45.92%) compared to Euro 3,712 thousand in the period 2006.

The market

In Italy 2007 was another year that witnessed financial institution mergers caused by the need to reach the critical mass required to operate on an international level. As a consequence some of the operators involved in mergers delayed their investment decisions.

In this context, the outcome reached is the result of the Group's ability over the years to continue to invest in Research and Development, thus maintaining a strategic position and the leadership of the Italian financial software market.

In its 2007 annual report, Assinform¹, an important Italian IT company, estimated a 2% increase in Information Technology expenditure in the ICT sector compared to 1.6% in the previous year, continuing a positive cycle which began in 2005 after three years of negative growth. The increase in IT expenditure has exceeded the PIL which stood at about 1.7% in 2007. Regarding IT demand, a determining role was played by medium-sized companies on the one hand that have increasingly needed to supply themselves with IT in order to be more efficient and competitive on their various markets, and on the other, the consumer segment (families and citizens) who continue to demonstrate greater interest in using new technologies, both in terms of PC and digital devices.

The company forecasts a 1.8% increase in the IT sector for 2008 as well, decidedly greater than the growth in PIL which is estimated at 0.5% and 0.8% according to the major institutes. To be more precise, the Software and Services sector has recorded a 1% increase, going from Euro 1,886 million to Euro 1,918 million. The positive trend was mostly registered thanks to a 3% increase in software. In the software segment, the best figures were registered in middleware and, to a lesser degree, in system software. The middleware segment is growing by +6% and benefits from the ever-increasing importance that concepts such as governance, performance management, risk management and compliance are taking on within companies. These concepts generate applicative integration projects (SOA, Web Services–security and consolidation/virtualisation) within the wide process of company information technology system rationalisation.

Applicative software– penalised by a less positive market situation from the start – is also continuing to receive some very positive signs. The system software segment continues to keep in tow of the good dynamics of PCs, even if it is a little slower than last year in expectancy of the relative release of new operational systems. The growth in applicative software differs according to the type of solution concerned. Nevertheless, positive signs continue because of growing demand in some specific areas: Business Intelligence, since data and information management is being given increasingly more strategic importance, ERP as an integration instrument between the various applicative areas and SCM as a management support and demand forecasting tool (demand planning) etc.

Significant events of the period

On February 5th 2007, CAD IT and Xchanging, the business processing services company announced the signing of an exclusive 3 year partnering agreement.

The partnering agreement reinforces the objectives of the original letter of intent, signed in November 2005, which comprised the following:

- CAD IT will be the preferred supplier of application solutions for the Xchanging Financial Services division. Xchanging will involve CAD IT in all the international projects aimed at delivering software solutions for the financial services sector.

- Xchanging and CAD IT will continue their analysis of the business potential of the Italian market for business process services. Xchanging will be CAD IT's preferred partner for business services in Italy.

This agreement further strengthens CAD IT and Xchanging's strategic alliance as they maximise synergies to exploit the Italian and international market.

On 30th April 2007 the Ordinary Shareholders' Meeting decided the distribution of an ordinary dividend of 0.29 Euro per share, in increase of 61% regarding the 0.18 Euro per share of dividend 2005. The dates for coupon detachment and dividend payments was the 14th and 17th of May 2007 respectively.

Furthermore, the Ordinary Shareholders' Meeting extended the appointment of the auditing firm BDO Sala Scelsi Farina for the auditing of CAD IT SpA and subsidiary accounts for a further three years, an appointment that will therefore end when the Shareholder Meeting approves the balance for year ending 31.12.2014.

In relation to the CAD IT S.p.A. Statute, the Extraordinary Shareholders' Meeting approved proposals to

¹ Source:

Assinform, Rapporto Assinform - Il primo semestre 2007.

Assinform, Il mercato IT in Italia nel 2007 e le prospettive per il 2008.

modify the following articles: 2 (Head Office and address); 4 (Purpose: possibility to apply to the capital risk market); 6 (Shareholder Meetings: effect of decisions in terms of absent or dissenting shareholders, approval and modification of "shareholder meeting regulations"); 8 and 9 (Shareholder Meetings: right to intervene and to be represented by delegation); 10 (Shareholder Meetings: meeting chairmanship and nomination of the secretary); 11 (Shareholder Meetings: constitution and deliberation of ordinary and extraordinary shareholder meetings); 12 (Shareholder Meetings: the summoning of the annual ordinary shareholder meeting); 14 (Directorship: the number and requirements of directors, modality of director nomination, candidature and lists, chairman nomination, duration of office, powers of the Board of Directors and non delegable matters, statute adjustment powers in accordance with the law).

Moreover, the CAD IT S.p.A. Extraordinary Shareholders' Meeting introduced some new articles: article 7 concerning the modalities for summoning a meeting on the request of a large number of shareholders representing at least one tenth of the company capital or on request of the Board of Auditors or of two of its members; article 8 regarding the integration of a list of matters to be discussed at the meeting on the request of a large number of shareholders representing at least one fortieth of the company capital and article 25 relating to the manager appointed for the drafting of company accountancy documents.

The report showing the modifications made to the Statute is available to shareholders on the CAD IT S.p.A. company web site at www.cadit.it, as well as at Borsa Italiana S.p.A.

On April CAD IT has announced that the Banca Popolare dell'Emilia Romagna group will be using its new software procedure to manage local taxes. The solution developed by CAD IT will enable nominated bodies to carry out all operations regarding management of tributary and non tributary tax collection. The Banca Popolare dell'Emilia Romagna group, through its own treasury services for public bodies and thanks to the CAD IT software procedure, will offer the market a new solution which will see a global management of income and services for Public bodies. CAD IT will supply the software procedure, maintenance service and aid in training the end user. The solution that takes into account the most innovative development procedures (Service Oriented Architecture and Web Based) is made up of a series of "Operating Modules" completely compatible with each other that allow the management of all operations laid down by governing rules and which perfectly complies to various e-government projects. The application allows one to excel the management of returns and the activity of Voluntary and Compulsory Taxes in specific and independent modules which are formed according to the needs of the individual customer.

During the third and fourth quarters, project activities, which began in May 2007 to allow the Group's financial institution clients to comply with the MiFID directive, continued.

The MiFID directive (Market in Financial Instruments Directive), which came into force on 1st November 2007, required many changes in the operational modalities with which the banks and investment companies conduct their business with their clients. In fact, the financial institutions have revised their existing processes in order to adjust them to the new obligations concerning investor warranty. MiFID creates a new setting for national intermediaries, imposing considerable efforts of adaptation and, at the same time, opening up new business prospectives.

During the current period, development and sales activities of new products for both consolidated clients and new types of customer have been continuing.

Research and development

In relation to activities aimed at consolidating traditional business, the production of new modules to increase the functional and technological development of the considerable range of software installed remains constant within the Group.

The creation and use of new computer systems aimed at diversifying the Group's offer towards those sectors bordering on the ones in which it is already present, is still underway.

As regards new projects, development are continuing on the SIBAC GS platform, which is a fundamental element for the Group's strategic growth.

Activity in the production of specialised modules for the business intelligence area is also continuing.

CAD IT and Smart Line S.r.l. are now investing to enrich their own offer range of solutions and services for Public Administration and authorities for the management of local taxes.

The CAD IT Group, in its intent to develop its own products, is also creating solutions linked to the new norms and further procedures aimed at diversification for new business sectors like Insurance and new software modules for international market.

Investments

| Summary of investments | Period 2007 01/01-31/12 | Period 2006 01/01-31/12 |
|--|------------------------------------|------------------------------------|
| Intangible fixed assets | 219 | 83 |
| Assets under development and payments on account | 2,335 | 4,406 |
| Plant, machinery, equipment and other tangible fixed assets | 408 | 489 |
| Total investments in tangible and intangible fixed assets | 2,962 | 4,979 |
| Shareholdings and financial investments | | |
| Total shareholdings and financial investments | | |
| Total investments | 2,962 | 4,979 |

Investments in tangible and intangible fixed assets made by the consolidated companies in the year 2007 amount to Euro 2,962 thousand (Euro 4,979 thousand in the same previous year period).

The consisting amount of investments is a consequence of strategic decisions taken by the directors' meeting and management that approved investments to develop several new products needed by its own customers. As planned, investments were reduced during the year and a further gradual reduction in respect of last year's figures is forecast for future financial periods.

Investments in intangible fixed assets mainly regard the development and purchasing of software for licensing to the clients or instrumental software to be used by the Group for its own activity.

Relationships with Group companies

During the financial period concerned, the Group's companies carried out operations with the controlled companies and businesses subject to CAD IT control. The patrimonial and economic effects of the operations carried out between companies consolidated with the integral method have been omitted in the consolidated balance with the exception of:

services concerning the development of software procedures to be sold or instruments for the traditional activities of the Group's companies that are registered among intangible fixed assets;

other operations, of insignificant amount, regarding the assignment of instrumental assets for the purchaser.

Relationships between the Group's companies are governed on the basis of contractual relations drawn up by the respective administration organs bearing in mind the quality of the assets and services involved and the competitive conditions of the market and adapting the interests of the Group.

The table below gives a summary of the income and service performances, as well as the credit and debit position of all the Group's consolidated companies, as of 31/12/2007:

| Company | Costs | Capitalized costs | | | Turnover | Receivables | Payables |
|-----------------------|---------------|----------------------------|------------------------------|--------------|---------------|---------------|---------------|
| | | Increases in internal work | Software licences and rights | Other assets | | | |
| Cad It S.p.a. | 6,726 | 832 | | 4 | 16,729 | 12,587 | 9,866 |
| Cad S.r.l. | 18,047 | | | 0 | 2,641 | 5,686 | 13,318 |
| Cesbe S.r.l. | 631 | | | | 2,242 | 3,346 | 326 |
| NetBureau S.r.l. | 14 | | | | 687 | 421 | 258 |
| DQS S.r.l. | 63 | | | | 2,209 | 1,213 | 101 |
| SGM S.r.l. | 29 | | | | 1,098 | 725 | 123 |
| SmartLine Line S.r.l. | 45 | | | | 161 | 146 | 269 |
| BitGroove S.r.l. | 419 | | | 14 | 626 | 157 | 323 |
| Elidata S.r.l. | 87 | | | | 29 | 26 | 165 |
| Datafox S.r.l. | 78 | | | | 513 | 370 | 28 |
| Tecsit S.r.l. | 1 | | | 225 | 280 | 100 | 1 |
| Total | 26,140 | 832 | | 243 | 27,215 | 24,777 | 24,777 |

There have been no abnormal or unusual transactions between the CAD IT Group's companies in this financial period.

CAD IT S.p.A.'s relations with its subsidiaries are shown at in the directors' separate CAD IT S.p.A. Balance report.

Shares held by managerial and controlling organs and by the managers with strategic responsibilities

Information on shares held by the components of the administrative and control organs, and by the managers with strategic responsibilities within the issuing company and in the companies controlled by it, is given in the following table²:

| Name and surname | Company | Number of shares held at 31.12.2006 | Number of shares bought | Number of shares sold | Number of shares held at 31.12.2007 |

Corporate Governance

On 26th March 2008, the Board of Directors approved the 2007 annual report in accordance with art. 124-bis of Leg. Decree 58/1998 and art. 89 bis of the Issuer Regulations, in order to provide the CAD IT S.p.A. shareholders with adequate information about its own company management system and about how much the company adheres to the new auto-disciplinary code for quoted companies laid down by the Corporate Governance Committee and promoted by Borsa Italiana S.p.A.

The report is available to the public in the Investor Relations sector of the company website: www.cadit.it.

Financial instruments and risk management

The Group is exposed to limited risks in terms of its activities.

Credit risks concerning commercial relations with its clients: the Group mainly operates with banks and their associated companies and other clients of approved soundness and solvency. This is why, in previous financial periods, credit losses have been relatively insignificant. If objective conditions on the partial or total irrecoverableness of a credit of an individual client should arise, the relative credit will be subject to depreciation on the basis of an estimation of recoverable flows and of collection times. For credits that are not subject to individual depreciation, credit depreciation funds are allocated on a collective basis in correlation with the past incidence of occurred losses.

Interest rate risk: CAD IT and the Group's companies use available liquidity in bank accounts and capitalisation insurance policies and other financial resources, principally in the form of advances on commercial credits and the use of current account overdrafts. Changes in market interest rates can influence investment performance and the cost of financing affect revenues and financial outlay.

Exchange rate risk: at the moment the Group only operates marginally on an international level and is

³ In accordance with Consob communication no. 6064293 of 28 July 2006.

therefore not subject to significant exchange rate risks.

Liquidity risk: keeping up an adequate amount of liquid assets and the ability, as demonstrated in the past, to generate positive cash flows, make the risk of not having enough financial resources to fulfil the needs of the Group's activity very slight.

No operations were carried out using derivate instruments during the period since it is not the company's policy to carry out these kind of operations, whether for cover purposes or for negotiation.

Other Information

During this financial period, and the previous one, no atypical or unusual operations have been carried out as defined in the Consob communication no. DEM/6064293.

In the balance report, no alternative performance indicators have been adopted with the exception of the net financial position, shown in the balance notes, for which no reclassifications have been made in terms of balance figures and relative explanations are supplied and linked to the patrimonial status entries concerned, as defined in the CESR Recommendations.

In reference to article 26 of attachment B of the Legislative Degree no. 196 of 30th June 2003, the programmatic document on security and personal data protection and the use of the measures stated within has been drafted and updated.

Important events since 31st December 2007 and foreseeable development

The Board of Directors has placed maximum attention on the needs of the market, on management and development strategy orientation, coordinating the use of the Group's resources to maintain the high level of efficiency and achievement of favourable economic results.

In the ongoing financial period, the development and sale of new products to existing clients and new types of client are continuing. The activity which began in May 2007 regarding the laws on the adjustment of information technology systems to the MiFID directive will continue throughout the first six months of 2008. In this context, 200 financial institutions will use software developed by CAD IT to adjust their information technology systems to the aforementioned law.

Moreover, the intense planning activity with Xchanging, through which the CAD IT Group aims to increase its income in Italy and to geographically diversify its own business, continues.

Moreover, the CAD IT S.p.A. Board of Directors is continually on the look-out for any possible development opportunities, whether direct or external, through the further employment or purchase of shares with the aim of creating activities to compliment or unite with the existing ones.

On behalf of the Board of Directors
The Chairman
(Giuseppe Dal Cortivo)

Notes to the financial statements

CAD IT S.p.A. is a joint stock company and is governed on the basis of Italian law and exercises its management and coordinated activities on its own controlled companies. CAD IT S.p.a. is not subject to other company control in accordance with art. 2359 of the civil code. The company is listed in the STAR market of the Italian stock exchange. The company is listed in the STAR segment of the Italian stock exchange. The registered office and the administrative and operating offices are in Via Torricelli no. 44/a, Verona, Italy. The company is registered in the Verona Company Register under no. 01992770238.

1 Accounting policies and evaluation criteria more important

This report has been drafted in accordance with the international IAS/IFRS accounting standards issued by the International Accounting Standard Board (IASB) and approved by the European Union.

The accounting standards adopted are the same as those used for drafting the last annual balance and have been applied in the same manner throughout the periods shown and for all the Group's companies; there have been no modifications in the comparative information.

This document comprises consolidated financial statements, notes to the said financial statements, administrative staff observations on how management is progressing and the most important factors of the financial period, and the financial statements regarding the parent company.

The consolidated balance has been drafted using the evaluation criterion of past cost, except for financial instruments available for sale, which are assessed at *fair value*, and the holdings in subsidiaries, which are assessed in accordance with the equity method. Moreover, where some land and buildings have been included in *First Time Adoption*, the *fair value* has been used instead of the cost.

The report has been prepared in accordance with Consob regulation no. 11971 of 14th May 1999, and subsequent modification and integration.

Unless otherwise indicated, the monetary sums in the accounting tables and those in the notes are shown in thousands of Euro. Any minor differences deriving from rounding up figures to thousands of Euro are considered irrelevant. Due to this rounding up process, the sum of the individual entries in some of the tables containing exact figures may differ from the total amount.

Use of estimates

In accordance with the IFRS, when drafting the balance the company management formulates evaluations, estimates and hypotheses to apply the accounting standards which affect the amounts of credit and debit and the costs and revenues found in the balance. Estimates and their relative hypotheses are based on past experience and factors considered reasonable for the case concerned. Since they are estimates, the results obtained are not necessarily the same as the results portrayed.

The estimates and hypotheses are reviewed on a regular basis. Any variations deriving from an accounting estimate review are shown in the period in which the review was made if such review only affects that period. If the review affects the current and future periods, the variation is recorded in the period in which the review is made and in the relative subsequent periods.

Balance sheet layout

The balance layouts have been drafted according to IAS 1 specifications and opportunely integrated with the information required by the Consob deliberation no. 15519 of 2006.

The Group presents its economic account by nature, the format that is considered the most representative in terms of function presentation. In fact, the chosen format conforms to the internal reporting modalities and the business management and is in line with the way the economic account was represented in the past.

The profit and loss account is drafted in scalar format highlighting the following intermediate results:

- Production revenues: this is the value of services and goods produced and sold by the Group, including internal assets and other income and earnings from the traditional offer.

- Added value: obtained by subtracting the operative costs for service and asset purchases from production revenues, this measures how much of the internal production and distribution of goods and services is due to company productive factors.
- Gross Operational Result (EBITDA): this figure is obtained by subtracting from the added value all of the costs that can be put down to staff and other administrative expenses. It highlights the result based on the traditional offer including depreciations, financial management, revaluations or devaluations and taxes.
- Operational Result (EBIT): this figure is obtained by subtracting the depreciation and funding amounts from the gross operational result.
- Ordinary Result: this includes the financial management result.
- Pre-tax result: obtained by including revaluations and devaluations in the ordinary Result

As for the patrimonial situation, a distinction has been made between current and non-current assets and liabilities.

The financial statement has been presented according to the indirect method so that the profit (or loss) for the period has been adjusted of any non-monetary operations and by deferrals and the setting aside of future incomes or payments.

Each column in the statement of net patrimony variations reconciles the opening and closing balances for each net patrimony voice.

Subsidiary companies

The consolidation area includes the Parent company and the companies it controls, that is, where it has the power to determine financial and managerial policies of a business in order to reap benefits from said company's activities.

Subsidiary companies are consolidated from the date in which control was effectively transferred to the Group and are no longer consolidated as from the date that control becomes external to the Group.

These companies are consolidated using the integral consolidation method. In order to prepare the consolidated data, the patrimonial, economic and financial situations of the subsidiary and associate companies have been used as prepared by the Group's individual companies at the reference dates, opportunely reclassified and amended to reflect the application of the homogeneous accounting standards.

In drafting the consolidated balance all the balances and significant transactions between the Group's companies have been eliminated, as are all unrealised infra-group profit and loss transactions.

Associated companies

The share in associated companies, that is those companies in which the Group has significant influence, is evaluated using the net patrimony method, as defined in IAS 28 – Investments in Associates. The profits or losses relevant to the Group are included in the consolidated balance from the date in which this considerable influence began up to the moment it ceases.

Property, plant and equipment

Tangible fixed assets are shown at purchase cost, including any costs that may be directly ascribable and necessary for activating the asset and putting it to the use for which it was purchased. In reference to land and buildings listed in *First Time Adoption*, the fair value was used instead of the cost.

Tangible fixed assets are shown at net value of the relative accumulated depreciations and losses due to the reduction in value determined in accordance with the modalities described below.

Tangible fixed assets are amortised in constant rates during the course of their expected useful life cycle, i.e. the estimated period of time in which the asset will be put to company use. Whenever significant parts of tangible fixed assets have different estimated useful life cycles, said components are amortised separately.

The value to be depreciated is given by the registered value of the asset net of any loss in value and reduced by its assumed value at the end of its useful life cycle, if significant and reasonably calculable. The useful life cycle and the cash value are reassessed annually and any changes, where necessary, are brought in with a perspective application.

The main economic-technical tax rates used are the following:

industrial buildings: 3%
electrical equipment: from 5 to 10%
air conditioning equipment: from 6 to 15%
telephone systems: 20%
alarm systems: from 10 to 30%
furniture and fittings: 12%
electrical machinery: 15%
electronic machines and computers: 20%
vehicles: 25%

Land, both without buildings or next to civil and industrial constructions, is accounted for separately and not amortised as it is considered an element with an indefinite useful life cycle.

In order to calculate any losses due to depreciation, the accounting value of intangible fixed assets is subject to verification.

At the time of elimination or when no future economic benefit can be expected from the use of an asset, it is eliminated from the balance and the eventual loss or profit (calculated as the difference between the assignment value and the taxation value) is shown in the economic account of the year in which the asset is eliminated.

Financial leasing

Assets owned through financial leasing contracts, through which all the risks and benefits tied to the property are transferred to the Group, are registered among the Group assets at their fair value or, if this value is lower, at the present value of the minimum payments due for the leasing and depreciated by applying coherent criteria to the other assets. The corresponding liability towards the lessor is registered in the balance among the financial debts.

Intangible fixed assets

Intangible fixed assets are shown as such when it is likely that they will bring in future economic benefits for the company and when the asset cost can be feasibly determined.

Intangible fixed assets, having a defined useful life cycle, are subsequently registered net of the relative accumulated amortizations and any losses due to a reduction in value.

The useful life cycle is reassessed annually and any changes, where necessary, are brought in with a perspective application.

Profits or losses deriving from the transfer of an intangible fixed asset are determined as the difference between the elimination value and taxation value of said asset and are reported on the economic account at the time of elimination.

Project development costs for the production of instrumental software, or those to be terminated, are registered on the credit side when they satisfy the following conditions: the costs can be feasibly determined, the product is technically feasible, the expected use and/or sale of the product indicate that the sustained costs will generate future economic benefits. In respect of the standard that correlates costs and returns, these costs are amortized as from the moment in which the activity becomes available for use, in permanent amortisation amounts for the entire duration of the product's lifecycle, estimated at five years.

The costs of internally generated intangible assets include any expenses that can be directly attributable to the development of the product and any reasonable part of general production costs attributable to the preparation stages before putting the product to use. All other development costs that cannot be capitalised, when sustained, are reported on the income statement.

Goodwill

Goodwill resulting from the purchase of controlled and incorporate companies is initially registered at cost and is the overbalance of the purchase cost in respect of the purchaser's share of the fair value of the assets and liabilities and the potential liabilities at the date of purchase.

After the initial registration, goodwill is no longer amortised and is decremented of any losses in accumulated

value, calculated according to the IAS 36 Asset value reduction.

Goodwill is subject to an annual analysis of retrievableness or at shorter intervals if something happens or changes in circumstances arise, which could cause losses in value.

Goodwill deriving from purchases made prior to 1st January 2004 is registered at the recorded value ascribed to it in the last balance drafted on the basis of the previous accounting standards (31st December 2003). In fact, during the preparation of the opening balance in accordance with the international accounting standards, none of the purchase transactions made prior to 1st January 2004 have been re-considered.

The start-up relating to holdings in associated companies is included in the value of these companies.

Impairment loss

The Group annually verifies the accountable value of intangible and tangible assets or more often whenever there is an indication that assets may have suffered a value loss.

If the charged value exceeds the recoverable value, the assets are devalued to reflect their recoverable value, represented by the greatest figure between the net price and use value. In defining the use value, expected future financial flows are discounted back using a pre-tax discount rate that reflects the current market estimations in reference to the cost of money at the time and the specific risks of the asset in question. For an asset that does not generate widely independent financial flows, the return value is determined in relation to the unit generating the financial flows of which the asset is a part. The value losses are accounted for in the economic account among depreciation and devaluation costs. When subsequently an asset value loss, different from the beginning, is less or decreases, the accounting value is increased to a new estimate of the recoverable value within the limit of the previous value loss. The recovery of a value loss is registered to the economic account.

Assets available for sale

Share in non-consolidated companies are classified as assets financially available for sale and are valued at fair value. For any shares quoted the fair value is the market value as of the reference date. The profits and losses found due to the effect of evaluation at fair value at every balance date for these activities were determined at net patrimony except for the value losses registered to the economic account, until the financial activity has been eliminated, which is the moment when the total profit or loss found in the net patrimony is registered to the profit and loss account.

Other non-current credits

These are registered at their nominal value, representative of their fair value.

Stock

Leftover stock is valued as the lesser value between purchase cost and the net value of the assumed income. The cost is determined in accordance with the average calculated cost method.

On-going orders

On-going construction contracts are valued with reasonable certainty on the basis of the matured contractual fees according to the criterion of percentage completion (so-called cost to cost), so as to attribute the profits and the economic result of the order to each single financial period concerned in proportion to the progress of the work.

Commercial credits and other credits

Commercial credits, whose expiry limits are within normal commercial terms, are not updated and are registered at their nominal value net of any loss of value. Moreover, they are adjusted to their assumed cash value by means of the registration of an appropriate amendment fund.

Liquid asset availability and equivalent means

The availability of liquid assets and equivalent means is registered at nominal value and has the requirements to be immediately available or available at very short notice, without obstacles and with no significant expense for collection. Financial investments are classified as liquid assets only when they have a short expiry (i.e. at three months or less from the purchase date).

Non current assets held for sale

The voice includes non-cash assets, the value of which will mostly be recovered by their sale rather than through their continuous use. These assets are valued as the lesser value between the net accounting value and the cash value net of sales costs.

Employee leaving entitlement

The present value of debts related to employees for benefits allocated in connection with or following the termination of working relationships through defined benefit programmes is calculated on the basis of the method of projecting the credit in accordance with the indications in IAS 19. The liabilities calculation is carried out by independent actuaries.

Profits and losses deriving from carrying out actuarial calculations are registered to the Profit and Loss account.

Due to modifications to the laws concerning the termination of working relations (TFR) enforced by Law no. 296 of 27th December 2006 (Financial Act 2007) and subsequent Decrees and Regulations issued in the early months of 2007, the TFR amounts matured since 1st January 2007 in the Group's companies with more than 50 employees have been accounted for as a Definite Contribution Plan, both in terms of the option of complementary welfare and in terms of allocation to the Treasury Fund at INPS (social security office). The TFR Fund matured at 31st December 2006, however, remains as a Definite Benefit Plan: the actuarial calculations have therefore excluded the component relating to future increases in salary. The difference resulting from the new calculation compared to the previous value registered at 31st December 2006, has been accounted for as a reduction of a definite benefit plan, in accordance with paragraph 109 of IAS 19, the difference thus appearing in the Profit and Loss account.

Risk and obligation funds

In accordance with the IAS 37, the allocations are shown when there is an ongoing obligation (legal or implicit) that stems from a past event, whenever an outlay may be necessary to satisfy the obligation and a feasible estimation may be made on the obligation amount.

If the effect of updating the assumed cash value is significant, the allocations are calculated by updating the expected future financial flows at a pre-tax discount rate that reflects the current market evaluation of the cash value in relation to time. When updating has been done, the increase in the allocation caused by the passing of time is shown as a financial obligation.

Commercial debts and other current liabilities

The commercial debts, whose deadlines are within normal commercial terms, are not updated and are registered at cost (identified by their nominal value).

Financial liabilities are initially shown at cost, which corresponds to the fair value of the liability, net of transition costs, which are directly attributable to the issue of the liability itself.

After the initial determination, the financial liabilities are assessed with the criterion of amortized cost using the original effective tax rate method.

Revenues and costs

The revenues and costs are determined in accordance with the qualifying economic principle to the amount to which the fair value can be feasibly determined.

Depending on the type of operation, the revenues are determined on the basis of the specific criteria reported

below:

- the revenues for services are determined with reference to the point at which they stand on the basis of the same criteria used for determining the position of ongoing orders. If it is not possible to feasibly determine the revenue values, they are then calculated until they concur with the amount of expenses sustained and which are deemed recoverable.
- the profits from the sale of goods are shown when significant risks and benefits of the ownership of the goods are transferred to the purchaser, the sale price is agreed or can be determined and payment is collected.

As for sales concerning assistance and/or maintenance services carried out with the annual subscription formula, the accrual is calculated in proportion with time.

The costs are ascribed in the balance according to the same criteria as those for revenue acknowledgment.

Income taxes

Current income taxes for the financial period are calculated on the basis of estimates of taxable income in accordance with the laws in vigour. Moreover, the effects deriving from the activation within the Group of the national tax consolidation are also taken into account. The debt for current taxes is accounted for in the patrimonial status, net of any taxes paid in advance.

Deferred and pre-paid income taxes are calculated on the temporary differences between the patrimonial values registered in accordance with the IFRS international accounting standards and the corresponding values realised for tax purposes. Deferred income tax are calculated applying the tax rate which will be in force at the year after the account reference dates.

In particular, assets due to pre-paid taxes are registered when their recovery is probable, that is, when it is expected that sufficient tax profits will be available in the future so that these assets may be used. The degree of recovery of pre-paid tax assets is re-examined at the end of every period. Deferred taxes are always calculated in compliance with the IAS 12.

2 Revenues

The revenues gained in the period by the Group are subdivided as follows:

| | Period 2007 | | Period 2006 | | Variazioni | |
|--|---------------|---------------|---------------|---------------|--------------|--------------|
| | 01/01 - 31/12 | | 01/01 - 31/12 | | | % |
| Income from sales and services | 58,256 | 96.0% | 47,669 | 91.2% | 10,587 | 22.2% |
| Variations in stock of products being elaborated | (91) | (0.1%) | | | (91) | |
| Changes in ongoing orders | (106) | (0.2%) | 56 | 0.1% | (162) | (287.1%) |
| Asset increases due to internal work | 2,335 | 3.8% | 4,406 | 8.4% | (2,071) | (47.0%) |
| Other revenue and receipts | 301 | 0.5% | 111 | 0.2% | 190 | 171.3% |
| Production value | 60,696 | 100.0% | 52,243 | 100.0% | 8,453 | 16.2% |

Service and sales include any income from the sale of licensed out software, maintenance services for software updating, the use of personalised applicative packages, the sale of hardware, consultancy services and information technology system design.

During the financial period, revenues grew by 22.2% compared to the 2006 and reached Euro 58,256 thousand. The increase in revenues was favoured by the Group's intense activity in the adjustment of information technology systems to the new MiFID regulations in the banking field.

Increases in intangible assets due to internal work include the activities carried out by the staff of CAD IT and the Group's companies concerning the development of new procedures aimed at the sale of licensed products or instrumental goods for the company's traditional business.

The Group's activities are not, on the whole, affected by significant cyclical or seasonal variations in total sales during the financial period.

3 Segment reporting by sectors and geographical areas

The internal organisational and managerial structure and the internal reporting for the Board of Directors is presently grouped into two operative divisions: Finance and Manufacturing. These divisions are the basis on which the Group reports sector information according to the primary layout.

The main activities of each sector are as follows:

- Finance: includes the computer applications aimed specifically at banks, insurances and other financial institutions. The main applications provide:

- management of intermediary activities on securities, funds and derivate instruments;
- management of the typical services in the credit sector, such as the collection, treasury and monitoring of credit procedures;
- service allocation for trading on line;
- management of integrated banking computer systems;
- consultancy and training.

- Manufacturing: includes the development and marketing of instruments and software applications and offers a series of services aimed at allowing the companies to effectively manage numerous company processes, including Outsourcing.

The data not allocated to the sectors mainly refer to income and costs for logistics and administration services given to the group's companies by the controlling party.

| <i>Disclosures for business segments</i> | | <i>31/12/2007</i> | | | |
|--|----------------|----------------------|------------------------------|-----------------|---------------------|
| | <i>Finance</i> | <i>Manufacturing</i> | <i>Not allocated/General</i> | <i>Elisions</i> | <i>Consolidated</i> |
| External revenues | 56,450 | 4,245 | | | 60,696 |
| Intersegment revenues | 2,995 | 950 | | (3,945) | |
| Total revenues | 59,445 | 5,195 | | (3,945) | 60,696 |
| Costs | (45,962) | (4,447) | (1,583) | 3,945 | (48,047) |
| Gross Operating Result (EBITDA) | 15,763 | 975 | (1,583) | | 15,155 |
| Operating Result (EBIT) | 13,483 | 749 | (1,583) | | 12,649 |
| Net financial income (expenses) | | | 220 | | 220 |
| Revaluations and devaluations | 992 | | | | 992 |
| Result | 14,475 | 749 | (1,363) | | 13,861 |
| Income taxes | | | (5,316) | | (5,316) |

| Assets | 86,134 | 2,915 | 410 | | 89,460 |
| Liabilities | 17,230 | 1,738 | 7,071 | | 26,039 |

| <i>Disclosures for business segments</i> | | <i>31/12/2006</i> | | | |
|--|----------------|----------------------|------------------------------|-----------------|---------------------|
| | <i>Finance</i> | <i>Manufacturing</i> | <i>Not allocated/General</i> | <i>Elisions</i> | <i>Consolidated</i> |
| External revenues | 47,715 | 4,528 | | | 52,243 |
| Intersegment revenues | 3,567 | 1,280 | | (4,847) | |
| Total revenues | 51,282 | 5,808 | | (4,847) | 52,243 |
| Costs | (42,712) | (5,584) | (1,414) | 4,847 | (44,863) |
| Gross Operating Result (EBITDA) | 9,956 | 500 | (1,414) | | 9,042 |
| Operating Result (EBIT) | 8,570 | 224 | (1,414) | | 7,380 |
| Net financial income (expenses) | | | 157 | | 157 |
| Revaluations and devaluations | 27 | | | | 27 |
| Result | 8,597 | 224 | (1,257) | | 7,563 |
| Income taxes | | | (4,303) | | (4,303) |
| Third party share (profit)/loss | (757) | (24) | 481 | | (300) |
| Financial period profit (loss) | 7,840 | 200 | (5,079) | | 2,961 |

| | | | | |
|-------------|--------|-------|-------|--------|
| Assets | 79,542 | 3,654 | 377 | 83,572 |
| Liabilities | 17,425 | 2,081 | 6,773 | 26,279 |

Information on the sector according to the secondary layout by geographical area is not provided as the Group presently produces and carries out its activities almost totally nationally and homogeneously.

4 Purchase Costs

| <i>Purchase costs</i> | 31/12/2007 | 31/12/2006 | Variations | % |
|---|--------------|--------------|------------|--------------|
| Hardware-Software purchases for sale | 826 | 1,010 | (183) | (18.16%) |
| Maintenance and consumable hardware purchases | 109 | 17 | 92 | 533.29% |
| Other purchases | 231 | 209 | 22 | 10.78% |
| Variations in raw material stock | 61 | (12) | 73 | (584.75%) |
| Total | 1,227 | 1,223 | 4 | 0.36% |

Costs for purchasing hardware and software for sale refer to purchases made for orders that clients had already confirmed and are substantially stable over the two periods in question.

5 Service costs

| <i>Services costs</i> | 31/12/2007 | 31/12/2006 | Variations | % |
|---|---------------|--------------|--------------|---------------|
| External collaboration | 6,178 | 5,289 | 888 | 16.80% |
| Travelling expenses and fee reimbursement | 1,417 | 1,277 | 139 | 10.89% |
| Other service costs | 2,408 | 2,356 | 52 | 2.20% |
| Total | 10,002 | 8,923 | 1,079 | 12.10% |

Service costs in 2007 came to Euro 10,002 thousand, an increase compared to the previous year (Euro 8,923 thousand). In more precise terms, external collaboration costs increased by Euro 888 thousand (+16.80%), expenses reimbursement and travel costs increased by Euro 139 thousand (+10.89%) and other service expenses came to Euro 52 thousand (+2.20%). The cost for expenses reimbursement and travel increased during the year in relation to the increase in productive activity; this intense activity made it necessary to employ further external collaboration, often highly qualified and specialised professionals.

Other service costs mainly include assistance fees and hardware and software maintenance, energy costs, administrative, legal and fiscal consultancy, maintenance costs for office management and installed systems.

6 Other operational costs

The following chart shows the details of other operational costs which have decreased compared to the previous year due to a reduction in the various management costs (Euro -245 thousand compared to 2006).

| <i>Other operational costs</i> | 31/12/2007 | 31/12/2006 | Variations | % |
|--------------------------------|------------|--------------|--------------|-----------------|
| Third party benefit expenses | 689 | 665 | 24 | 3.64% |
| Various management charges | 125 | 370 | (245) | (66.31%) |
| Total | 814 | 1,035 | (221) | (21.38%) |

Third party benefit expenses mainly refer to equipment and software rental and to office lease.

7 Labour costs and Employees

Labour costs amounted to Euro 30,999 thousand and are as follows:

| <i>Labour costs</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|--------------------------|-------------------|-------------------|-------------------|--------------|
| Salaries and wages | 22,882 | 21,542 | 1,339 | 6.22% |
| Payroll taxes | 6,977 | 6,575 | 402 | 6.12% |
| Severance pay | 1,034 | 1,429 | (395) | (27.66%) |
| Retirements and the like | | | | |
| Other costs | 106 | 124 | (18) | (14.45%) |
| Total | 30,999 | 29,670 | 1,329 | 4.48% |

Labour costs in 2007 financial period increased by Euro 1,329 thousand (+4.48%) compared to previous year, even though the average number of employees was lower, mainly due to the effect of staff overtime pay, necessary to be able to cope with the intense production achieved during the period.

The cost regarding severance pay in 2007 was less compared to the previous year mainly due to the effect of the change in law, as previously describes.

The figures relating to the precise number of employees currently working in the CAD IT Group are shown below:

| <i>Category of employees</i> | <i>labour force at 31/12/2007</i> | <i>labour force at 30/06/07</i> | <i>labour force at 31/12/06</i> |
|------------------------------|-----------------------------------|---------------------------------|---------------------------------|
| Management | 19 | 18 | 18 |
| White-collars and cadres | 595 | 592 | 601 |
| Blue-collars | 1 | 1 | 1 |
| Apprentices | 3 | 3 | 3 |
| Total | 618 | 614 | 623 |

The number of CAD IT Group staff, at the end of the 2007 financial period was 5 persons less than at 31st December 2006; the average number of employees in 2007 was 617 persons while this figure was 631 in 2006.

The following table shows data regarding the CAD IT Group employees:

| <i>Category of employees</i> | <i>Average number 2007</i> | <i>Average number 2006</i> | <i>Variations</i> |
|------------------------------|----------------------------|----------------------------|-------------------|
| Management | 18 | 19 | -1 |
| White-collars and cadres | 595 | 608 | -13 |
| Blue-collars | 1 | 1 | 0 |
| Apprentices | 3 | 3 | 0 |
| Total | 617 | 631 | -14 |

The Group continues to dedicate particular attention to professional staff training at certain periods by means of internal training programmes and updating courses.

During 2007 CAD IT received an "Educational Business" award by Confindustria Verona for having integrated training into its mission by including it among its strategic objectives, in the awareness that human capital should be exploited by favouring the broadening and divulgence of knowledge.

8 Other administrative costs

The table below shows the other administrative costs in detail:

| <i>Other administrative costs</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|---|-------------------|-------------------|-------------------|--------------|
| Director and legal representative fees | 1,428 | 1,386 | 42 | 3.02% |
| Director retirement | 27 | 43 | (16) | (36.95%) |
| Director and legal representative fee contributions | 120 | 89 | 31 | 35.04% |
| Telephones | 643 | 598 | 44 | 7.42% |
| Commissions | 99 | 29 | 71 | 247.02% |
| Advertising fees | 182 | 205 | (23) | (11.29%) |
| Total | 2,499 | 2,350 | 149 | 6.35% |

Other administrative costs include Euro 1,082 thousand to remunerations paid to correlated parties as shown in note 37.

9 Financial performance

The financial management result is in credit by Euro 220 thousand, an improvement on 2006, as the following detailed statement shows.

| <i>Financial performance</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|---|-------------------|-------------------|-------------------|---------------|
| Financial income from assets available for sale | 17 | 17 | | |
| Interest on bank deposits and equivalent | 376 | 264 | 113 | 42.77% |
| Total financial income | 393 | 280 | 113 | 40.18% |
| Interest on bank overdrafts and loans | (122) | (105) | (18) | 16.82% |
| Interest on debts for financial leasing | (14) | (16) | 1 | (8.86%) |
| Losses on exchanges | (36) | (3) | (33) | 1,170.89% |
| Total financial charges | (173) | (124) | (49) | 40.02% |
| Net financial income and (charges) | 220 | 157 | 63 | 40.31% |

Income is made up of dividends and interest earned on bank deposits of available liquid assets and on capitalization insurance policies classifiable as available liquid assets.

Financial expenses mainly refer to overdrafts on bank accounts.

10 Revaluations and depreciations

| <i>Revaluations and depreciations</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> |
|---|-------------------|-------------------|-------------------|
| Holding revaluation evaluated with the net patrimony method | 98 | 85 | 13 |
| Alienated assets available for sale revaluation | 894 | | 894 |
| Devaluation of shareholdings (loss cover) | | (58) | 58 |
| Total revaluations and depreciations | 992 | 27 | 965 |

The reassessment of available assets for sale derives from the alienation in 2007 of holdings in Class Editori S.p.A. and Cia S.p.A. and includes the transfer of that part of the evaluation reserve previously directly relative to patrimony.

Reassessment of the holdings evaluated by the equity method concern the associated company Sicom S.r.l., both in 2007 and in 2006.

11 Income taxes

| <i>Income taxes</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|---------------------------|-------------------|-------------------|-------------------|---------------|
| Tax pre-payments | 67 | (50) | 117 | (233.38%) |
| Deferred taxes | (41) | 201 | (242) | (120.65%) |
| Current taxes | 5,291 | 4,152 | 1,139 | 27.43% |
| Total income taxes | 5,316 | 4,303 | 1,013 | 23.54% |

The taxes ascribable to this period were estimated taking the results of the period and the norms in force into account and they represent the best possible estimate of the tax expenses ascribable to the period in question.

The controlling company, CAD IT S.p.A., and some of the Group's companies, have exercised the option of Group taxation as stated in art. 117 of TUIR 917/1986, for the three years 2007-2009, which concerns the determination of a global income that corresponds to the algebraic sum of all net incomes of the companies in the group. The liquidation of this one tax allows the Group the contextual use of any tax losses in the period and also allows for intergroup dividends to be totally excluded.

Tax incidence on the gross result was 37.78%, while at 31/12/2006 was 56.25%. The decrease in tax incidence is mainly attributable to greater fiscal amortizations compared to civil law amortizations, to the use of tax losses in previous years and to the effect of IRAP, whose incidence tends to decrease as pre-tax results improve.

| SUMMARY OF THEORETICAL TAX EXPENSES AND TOTAL EFFECT | | | | |
|---|----------------------------|---------------|-----------------------------|---------------|
| | <i>current period 2007</i> | | <i>previous period 2006</i> | |
| Current IRES tax | 3,643 | 26.28% | 2,580 | 34.11% |
| Current IRAP tax | 1,648 | 11.89% | 1,674 | 22.14% |
| Total current taxes and effective rates | 5,291 | 38.17% | 4,254 | 56.25% |
| Minor taxes from previous financial periods | | | -102 | |
| Total current taxes | 5,291 | | 4,152 | |

| RECONCILIATION BETWEEN TAX EXPENSES IN THE BALANCE AND THEORETICAL TAX EXPENSES | | | | |
|--|-------------|---------------|-------------|------------------|
| Theoretical rates | IRES | 33% | IRAP | 4.25% e 5.25% |
| | Taxable | Tax | Taxable | Tax |
| Pre-tax result | 13,861 | | 13,861 | |
| Theoretical tax | | 4,574 | | 589 |
| Temporary differences deductible in later periods | | | | |
| Director remuneration | | | | |
| Representation expenses | 37 | | 37 | |
| Total temporary tax variations on the increase | 37 | 12 | 37 | 2 |
| Temporary taxable differences in later periods | | | | |
| TFR putting into effect | (277) | | | |
| Further amortisations | (1,045) | | (1,045) | |
| Total temporary tax variation on the decrease | (1,321) | (436) | (1,045) | (44) |
| Turnaround of the temporary differences from previous periods | | | | |
| Representation expenses | (29) | | (29) | |
| Director remuneration | (72) | | | |
| Holding share devaluation | (7) | | | |
| Total temporary variations from previous periods | (108) | (36) | (29) | (1) |
| Permanent differences | | | | |
| To IRES / IRAP income increases | 493 | | 34,361 | |
| To IRES / IRAP income decreases | (1,210) | | (8,942) | |
| Total permanent differences | (718) | (237) | 25,419 | 1,103 |
| Taxable fiscal income | 11,751 | | 38,243 | |
| Continual loss | (713) | | | |
| Taxable income / current tax on the period's income | 11,038 | 3,643 | 38,243 | 1,648 |
| Effective rate on the pre-tax result | IRES | 26.28% | IRAP | 11.89% |

12 Earnings per share

The basic earnings per share is calculated by dividing the year's net profit ascribable to the ordinary shareholders of the Head Company by the weighed average number of ordinary shares in circulation during the year. The number of ordinary shares in circulation does not change during the year of the period and no other types of share are admitted.

There are no options, contracts or convertible financial instruments or equivalent that give their owners the right to acquire ordinary shares. Therefore, the basic profit per share and the dissolved profit per share agree.

| Earnings per share | Period 2007 01/01 - 31/12 | Period 2006 01/01 - 31/12 |
|--|--------------------------------------|--------------------------------------|
| Net profit ascribable to ordinary shares in thousands of euro | 7,968 | 2,961 |
| Weighed average number of ordinary shares in circulation | 8,980,000 | 8,980,000 |
| Net profit ascribable to ordinary shares for basic profit per share in Euro | 0.887 | 0.330 |

13 Property, plant and equipment

The caption "property, plant and equipment" is composed as follows:

| <i>Property, plant and equipment</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|--|-------------------|-------------------|-------------------|----------------|
| Land | 1,527 | 1,527 | | |
| buildings | 15,202 | 15,325 | (123) | (0.80%) |
| Plant and equipment | 2,289 | 2,512 | (223) | (8.88%) |
| Other assets | 1,129 | 1,229 | (100) | (8.14%) |
| Total property, plant and equipment | 20,147 | 20,592 | (446) | (2.16%) |

In the period, the item "property, plant and equipment" varied as follows:

| | <i>Land and buildings</i> | <i>Plant and machinery</i> | <i>Industrial and commercial equipment</i> | <i>Other tangible fixed assets</i> | <i>Fixed assets under development</i> | <i>Total</i> |
|--|---------------------------|----------------------------|--|------------------------------------|---------------------------------------|---------------|
| Purchase or production cost | 9,140 | 4,039 | 22 | 5,351 | | 18,552 |
| Previous years revaluations | 8,439 | | | | | 8,439 |
| Previous years depreciation and write-downs | (727) | (1,527) | (11) | (4,131) | | (6,397) |
| Adjustments to previous years write-downs | | | | (2) | | (2) |
| Opening value | 16,851 | 2,512 | 11 | 1,218 | | 20,592 |
| Variations in consolidation area | | | | | | |
| Purchases | | 51 | 5 | 351 | | 408 |
| Transfers | | | | | | |
| Reduction in accumulated depreciation due to disposals | | 22 | | 172 | | 194 |
| Disposals | | (36) | | (218) | | (254) |
| Revaluations for the period | | | | | | |
| Depreciation and write-downs for the period | (123) | (260) | (3) | (407) | | (793) |
| Adjustments to write-downs for the period | | | | | | |
| Total tangible fixed assets | 16,729 | 2,289 | 13 | 1,116 | | 20,147 |

Land and buildings include property and land, accounted for separately, belonging to the Group or conducted in leasing. The accounting value of the buildings calculated on the basis of leasing contracts is equal to Euro 326 thousand.

There are no restrictions on the legal ownership and possession of assets, systems and machinery to guarantee liabilities with the exception of property held in leasing. There are no contractual restrictions for buying assets, systems or machinery.

Some land and buildings have been revaluated at FTA at fair value as a substitute of cost and is calculated by an external expert. For further information regarding this point, please refer to the attached document on transition to the international accounting standards to the financial statement at 31 December 2005.

The purchasing of new tangible assets during the year came to a total of Euro 408 thousand of which Euro 351 thousand were for "other tangible assets" that mainly included the purchasing of electronic machinery, managerial instruments characteristic of the Group's activities.

In 2007 tangible assets of a past cost of Euro 254 thousand were alienated and the relative amortization fund came to Euro 194 thousand. During the year property, installations and machinery were not subject to any value reductions that required registration in the balance.

14 Intangible fixed assets

The caption "intangible fixed assets" is composed as follows:

| <i>Intangible fixed assets</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|---|-------------------|-------------------|-------------------|--------------|
| Development costs | | | | |
| Industrial patents and similar rights | 8,871 | 3,646 | 5,226 | 143.33% |
| Licences, trademarks and similar rights | 177 | 122 | 55 | 44.63% |
| Assets under development | 6,524 | 10,684 | (4,160) | (38.94%) |
| Others | | | | |
| Total Intangible fixed assets | 15,572 | 14,452 | 1,120 | 7.75% |

In the period, "Intangible fixed assets" varied as follows:

| | Industrial patents and similar rights | Licences, trademarks and similar rights | Assets under development and payments on account | Other | Total |
|--|--|--|---|--------------|---------------|
| Purchase or production cost | 4,615 | 3,087 | 10,684 | 23 | 18,410 |
| Previous years revaluations | | | | | |
| Previous years depreciation and write-downs | (970) | (2,964) | | (23) | (3,957) |
| Adjustments to previous years write-downs | | (1) | | | (1) |
| Opening value | 3,646 | 122 | 10,684 | 0 | 14,452 |
| Variations in consolidation area | | | | | |
| Purchases | 91 | 128 | 2,335 | | 2,554 |
| Transfers | 6,495 | | (6,495) | | |
| Reduction in accumulated depreciation due to disposals | | | | | |
| Disposals | | | | | |
| Revaluations for the period | | | | | |
| Depreciation and write-downs for the period | (1,361) | (74) | | | (1,434) |
| Adjustments to write-downs for the period | | | | | |
| Total intangible fixed assets | 8,871 | 177 | 6,524 | 0 | 15,572 |

The voice "industrial patent rights and works of ingenuity" is almost entirely made up of software procedures developed by the CAD IT Group; during the financial period, this registration increased by Euro 6,495 thousand due to the reclassification of procedures completed and available for sale or use which were previously registered to ongoing intangible assets.

The values are registered in credit to the directly sustained cost, including costs relating to the use of internal resources as well as any possible additional accessory fees that may occur. In respect of the principle that correlates costs and revenues, such costs are amortized as of the moment in which they are available for use and in terms of the product's lifecycle, estimated at five years. The amortizations of this voice in the 2007 financial period came to Euro 1,361 thousand.

The caption "Licences, trademarks and similar rights" principally includes the licensed out software bought by third parties used by the Group for programming activities.

The voice assets under development refers to investments in the development of software procedures under construction both for sale and for in-company use. Most of these investments are aimed at new, advanced

products, the use of which will be needed very shortly, even by law, in credit and financial institutions as well as in the field of public and industrial administration. These assets are listed as receivable on the basis of the directly sustained cost.

The fundamental condition for their registration in patrimonial credit is that said costs concern clearly defined, distinguishable and measurable products or processes and that they relate to projects that are both technically feasible and economically recoverable through revenues that will develop in the future by application of the project itself.

During 2007, ongoing intangible assets increased due to costs capitalised by CAD IT (Euro 1,307 thousand), by Datafox S.r.l. (Euro 60 thousand), by Smart Line S.r.l. (Euro 136 thousand) and due to costs of activities that CAD S.r.l. itself commissioned (Euro 762 thousand) and to Netbureau S.r.l. (Euro 70 thousand), to a total of Euro 2,335 thousand.

These assets have undergone no reduction in value during the year that need to be registered in the balance.

15 Goodwill

The Group verifies the recovery of goodwill at least once a year or more often if there are indications of a value loss. During the six month period, situations indicating that assets may be impaired and may need a formal estimation of their recoverable value have not been found.

The goodwill acquired in an aggregation of companies is allocated, at the time of purchase, to the Cash Generating Unit (CGU) from which benefits connected to the aggregation are expected.

In particular, with regard to the CGU of the Group, these concern the controlled companies that represent the smallest identifiable group of activities that generate in-coming financial flows and which are largely independent of the in-coming financial flows from other activities or groups of activities.

The accounting value of goodwill has been allocated to the CGU as follows at the date of First Time Adoption:

| Company | Goodwill accounting value |
|-------------------|---------------------------|
| CAD S.r.l. | 3,295 |
| Cesbe S.r.l. | 28 |
| Netbureau S.r.l. | 5 |
| S.G.M. S.r.l. | 1,224 |
| D.Q.S. S.r.l. | 2,279 |
| Bit Groove S.r.l. | 202 |
| Elidata S.r.l. | 617 |
| Smart Line S.r.l. | 443 |
| Datafox | 217 |
| Total | 8,309 |

The recoverable value of the CGU is verified by determining the value in use.

The evaluation of the CAD IT Group companies was made through a *Discounted Cash Flow* (DCF), the most common calculation method in financial markets. The results obtained by applying this method were compared to those obtained with the Market Multiple method and in all cases the results proved coherent. Operational cash flow forecasts are based on the most recent budget plans approved by the Board of Directors and relate to the period 2007-2011 which take into account the concrete company growth possibilities based on past data and on management forecasts. The financial flows that go over this period have been calculated with great care using a growth rate of nil. The putting into effect rate used is the weighed average of capital estimated at 8.33%.

The main assumptions used by the Directors for discounting back prospective financial flows in order to make an analysis of the holding value are reported below:

the equation used for estimating the weighed average cost of capital is the following:

$$k = k_b (1-TC) (B/V) + k_p (P/V) + k_s (S/V)$$

where:

k_b = interest rate in case of debt

TC = marginal tax rate of the economic bodies being evaluated

B = market value of the debt of a company

V = total market value of a company.

k_p = advisability cost of risk capital

P = market value of the privileged shares

k_s = advisability cost of own capital determined by the market

S = market value of the net capital.

The cost of capital was identified as $kS = 8.16\%$.

The permanent growth rate of the company being evaluated was chosen by taking it as 0% a year despite the CAGR of the income and profits of each being greater.

The value of the companies was determined as a summation of discounted back cash flows (Free Cash Flow), of the remaining value and the net financial position. In brief we can say:

COMPANY VALUE = \pm NET FINANCIAL POSITION + DISCOUNTED BACK CASH FLOWS + REMAINING VALUE

If we want to translate this equation into mathematical terms, we could show it in the following way:

N.P.V.= company value (Net Present Value)

P.F.N. = Net Financial Position

FCF = cash flow

k = cost of capital

N = explicit period

g = growth rate of the implicit period

$N.P.V. = \pm P.F.N. + \sum_i FCF (1+k)^{-N} + (FCF_{N+1} / k-g) \{ [1/[1+(k-g)]^N] \}$

16 Subsidiary companies and Consolidation area

The consolidation area, compared to the situation at 31/12/2006, has not changed.

In order to prepare the consolidated balance, the companies included in the CAD IT Group consolidation using the integral method are as follows:

| Company name | Registered office | Share/ Quota capital Euro | Percentage of investment | Percentage of investment of the Group |
|---|-------------------------|---------------------------|--------------------------|---------------------------------------|
| <i>consolidated using the integral method</i> | | | | |
| CAD IT S.p.A. | Verona | 4,669,600 | Parent company | |
| CAD S.r.l. | Verona | 130,000 | 100.00% | 100.00% |
| Cesbe S.r.l. | Verona | 10,400 | 52.00% | 52.00% |
| Netbureau S.r.l. | Milan | 50,000 | 100.00% | 100.00% |
| S.G.M. S.r.l. | Padova | 100,000 | 100.00% | 100.00% |
| D.Q.S. S.r.l. | Roma | 11,000 | 55.00% | 55.00% |
| Bit Groove S.r.l. | Verona | 15,500 | 100.00% | 100.00% |
| Elidata S.r.l. | Castiglione D'Adda (LO) | 20,000 | 51.00% | 51.00% |
| Smart Line S.r.l. | Avellino | 102,700 | 51.05% | 51.05% |
| Datafox | Florence | 99,999 | 51.00% | 51.00% |
| Tecsit S.r.l. (1) | Roma | 75,000 | 70.00% | 38.50% |
| (1) Held through DQS S.r.l. | | | | |

17 Investments in associates

The holding in Sicom S.r.l. was evaluated with the equity method. The reference values used for evaluating this holding with the equity method and the relative reference data on the patrimonial situation are shown in the following table:

| Company name | Date of reference | Quotaholders' equity including profit for the period | Profit for the period | Percentage of investment | Investment value of the Group | Carrying value in the consolidated year report |
|--------------|-------------------|--|-----------------------|--------------------------|-------------------------------|--|
| Sicom S.r.l. | 31/12/2007 | 745 | 391 | 25.00% | 186 | 186 |

18 Other financial assets available for sale

This point involves Class Editori S.p.A. and CIA S.p.A. shares respectively quoted in the Standards and Expands segment, managed by Borsa Italiana S.p.A. The two holdings are registered in the balance at market value at the balance date.

The profits and losses registered after a *fair value* evaluation at each balance date for this asset are registered to net patrimony with the exception of those value losses that must be registered in the profit and loss account.

The table below illustrates the value variations of these holdings during the year 2007:

| Holding | No. of shares held 31/12/2007: | fair value 31/12/2007 euro/000 | No. of shares held 30/06/2007: | fair value 30/06/2007 euro/000 | No. of shares held 31/12/2006: | fair value 31/12/2006 euro/000 |
|----------------------------|--------------------------------|--------------------------------|--------------------------------|--------------------------------|--------------------------------|--------------------------------|
| Class Editori S.p.a. (CLE) | 559,112 | 388 | 1,209,403 | 2,334 | 1,694,171 | 2,426 |
| Cia S.p.a. (CIA) | 1,230,509 | 805 | 1,230,509 | 591 | 1,694,171 | 361 |
| Total | | 1,193 | | 2,925 | | 2,787 |

19 Credits due to prepaid taxes

Credits due to prepaid taxes are made up of assets in this period or previous periods and will probably create a taxable income. Credits for pre-paid IRES and IRAP taxes are mainly in reference to time differences (deductible over the next few financial periods) and past losses that the Group's companies made. Subsequent to variations in the IRES and IRAP tax rates, advance tax activities have been adjusted resulting in the registration of a variation in reduction of Euro 10 thousand.

20 Inventories

Leftover stock, which is modestly significant, includes products being elaborated or semi-elaborated and finished products and goods. The entire point for the period in question is made up as follows:

| Inventories | 31/12/2007 | 31/12/2006 | Variations | % |
|--|------------|------------|--------------|-----------------|
| Raw materials, consumables and supplies | | | | |
| Products being elaborated or semi-elaborated | | 91 | (91) | (100.00%) |
| Finished goods | 508 | 569 | (61) | (10.64%) |
| Total final inventories | 508 | 660 | (151) | (22.94%) |

21 Ongoing work to order

Ongoing work to order was registered at a total € 286 thousand and includes jobs that were in their final stages, evaluated on the basis of the principle of the completion percentage (cost-to-cost).

| <i>Ongoing work to order</i> | 31/12/2007 | 31/12/2006 | Variations | % |
|------------------------------------|------------|------------|--------------|-----------------|
| Ongoing work to order | 286 | 392 | (106) | (26.94%) |
| Total Ongoing work to order | 286 | 392 | (106) | (26.94%) |

22 Other financial assets

Commercial credits and other credits are made up as follows:

| <i>Trade receivables and other credits</i> | 31/12/2007 | 31/12/2006 | Variations | % |
|--|---------------|---------------|--------------|---------------|
| Trade receivables | 29,180 | 25,750 | 3,430 | 13.32% |
| Accrued income and deferred expenses | 316 | 339 | (23) | (6.82%) |
| Other credits | 199 | 187 | 12 | 6.31% |
| Total trade receivables and other credits | 29,695 | 26,276 | 3,419 | 13.01% |

Credits to clients are entirely due within 12 months; the accounting value of commercial credits and other credits is approximate to their fair value.

Commercial credits are mainly in favour of the Group's Banking Institute clients.

The high sum of credits towards clients is conditioned by the size of the value of the contracts, which is often considerable, as well as the contractual terms of payment which usually state that the balance of the amounts due are to be paid after the procedures supplied have been approved.

The Group evaluated the credits to the probable break-up value. This evaluation is made analytically for expired credits and on expiry of a greater length of time than the average receipt time and on a lump-sum basis for the other credits, depending on the past incidence of losses that the Group finds for sales during the invoicing year.

Regarding credits that are considered uncollectable, an allocation fund has been set up to the amount of Euro 158 thousand (€ 82 thousand in previous period) which ensures a cover of 0.54% of the total amount of credits towards clients. This fund was determined on the basis of past data regarding losses on credits and is considered proportionate.

| <i>Trade receivables, net</i> | 31/12/2007 | 31/12/2006 | Variations | % |
|----------------------------------|---------------|---------------|--------------|---------------|
| Associated companies | | | | |
| Trade receivables | 29,338 | 25,833 | 3,506 | 13.57% |
| Bad debt provision | (158) | (82) | (75) | 91.43% |
| Total trade receivables | 29,180 | 25,750 | 3,430 | 13.32% |
| % Coverage of bad debt provision | 0.54% | 0.31% | | |

The point Accrued accruals and payables refers to accrued income to the sum of Euro 7 thousand and the remaining amount to accrued income made up as follows:

| Accrued costs | 31/12/2007 | 31/12/2006 |
|------------------------------|-------------------|-------------------|
| Software assistance | 138 | 106 |
| Advertising expenses | 27 | 54 |
| Third party benefit expenses | 42 | 65 |
| Telephone charges | 40 | 43 |
| Administrative services | 4 | 16 |
| Various insurances | 28 | 29 |
| Various | 29 | 21 |
| Total Accrued costs | 309 | 332 |

The total sum of the point on other credits showed the following results:

| Credits towards other | 31/12/2007 | 31/12/2006 | Variations | % |
|---|-------------------|-------------------|-------------------|--------------|
| Receivables from social security institutions | 2 | 2 | (0) | - |
| Receivables for advances on travel expenses | 12 | 12 | 0 | - |
| Payments on account to suppliers | 79 | 112 | (33) | (29.81%) |
| Other | 58 | 56 | 2 | 3.05% |
| Insurances | 40 | | 40 | |
| Guarantee deposits | 9 | 5 | 4 | 79.58% |
| Total credits towards other | 199 | 187 | 12 | 6.31% |

23 Tax credits

The registration of Euro 156 thousand is made up of surpluses in accounts deposited to pay direct taxes (IRES and IRAP) in the financial period as well as tax credits for requests for VAT reimbursements on motor vehicles in accordance with legislative decree no. 258 of 15th September 2006.

24 Cash and other equivalent assets

The bank and postal account deposits are made up of cash-on-hand in current bank accounts.

It is possible to redeem the capitalisation insurance policy at any time and reimbursement is made within 20 days with no particular significant expense. The returns are variable in relation to the annually calculated revaluation rate. The guaranteed minimum annual rate is 2.50%.

| Cash and other equivalent assets | 31/12/2007 | 31/12/2006 | Variations | % |
|---|-------------------|-------------------|-------------------|---------------|
| Bank and postal accounts | 10,617 | 3,311 | 7,305 | 220.60% |
| Cheques on hand | 13 | | 13 | |
| Cash-on-hand and cash equivalents | 16 | 21 | (6) | (27.18%) |
| Insurance policies capitalised | 2,452 | 6,197 | (3,744) | (60.42%) |
| Total Cash and other equivalent assets | 13,097 | 9,529 | 3,568 | 37.44% |

25 Company capital

The company capital, entirely registered, deposited and unchanged over the period, amounted to € 4,669,600. It was subdivided into 8,980,000 ordinary shares with a nominal value of € 0.52 each and all with equal rights.

The ordinary shares are registered and indivisible and each one gives the right to a vote at the ordinary and

extraordinary shareholders' meetings, as well as to the faculty of carrying out other company and patrimonial rights in accordance with the law and the statute.

Neither CAD IT S.p.A. nor its controlled companies own CAD IT or their own shares, not even through trustee companies or third parties.

Group net patrimony

The Group net patrimony at 31/12/2007 came to Euro 60,380 thousand compared to Euro 54,585 thousand at 31/12/2006.

Third party net patrimony

This point refers to the patrimony quota of the controlled companies that, on the basis of the 'Equity ratios', belongs to third parties. It was made up of:

| <i>Minority interests</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> |
|--|-------------------|-------------------|-------------------|
| Minority quotaholders of Cesbe S.r.l. | 1,810 | 1,663 | 147 |
| Minority quotaholders of Datafox S.r.l. | 176 | 157 | 19 |
| Minority quotaholders of Tecsit S.r.l. | 48 | 48 | 0 |
| Minority quotaholders of DQS S.r.l. | 283 | 252 | 32 |
| Minority quotaholders of Elidata srl | 554 | 472 | 82 |
| Minority quotaholders of Smart Line S.r.l. | 171 | 117 | 54 |
| Total | 3,041 | 2,708 | 333 |

26 Reserves

| <i>Reserves</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|--|-------------------|-------------------|-------------------|--------------|
| Own shares | | | | |
| Share surcharge reserve | 35,246 | 35,246 | | |
| Re-evaluation reserve | | | | |
| Re-evaluation reserve for fin. assets available for sale | 181 | (249) | 431 | (172.88%) |
| Total Reserves | 35,428 | 34,997 | 431 | 1.23% |

The variation of the evaluation reserve for assets available for sale comes from the variation in fair value at 31/12/2007 of the holding in the quoted company Class Editori Spa and CIA S.p.A., directly registered in the net patrimony reserve, net of amounts relating to the transfers carried out in the period.

| <i>Variation in re-evaluation reserve for financial assets available for sale</i> | <i>At 31/12/06</i> | <i>Allocation of transfer reserves to economic account</i> | <i>Allocation of fair value adjustments to equity</i> | <i>At 31/12/07</i> |
|---|--------------------|--|---|--------------------|
| Effects from valuation Class Editori S.p.a. (CLE) | (374) | 262 | 77 | (35) |
| Effects from valuation Cia S.p.a. (CIA) | 125 | (34) | 125 | 216 |
| Total | (249) | 228 | 203 | 181 |

27 Accumulated profit/losses

| <i>Accumulated profits/losses</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|---|-------------------|-------------------|-------------------|---------------|
| Previous profits/losses | 179 | 585 | (406) | (69.34%) |
| Legal reserve | 934 | 934 | | |
| Statutory reserve | | | | |
| IFTA transition reserve | 2,119 | 2,119 | | |
| Consolidation reserve | (1,400) | (2,077) | 677 | (32.58%) |
| Available joint profit reserve | 10,482 | 10,396 | 86 | 0.82% |
| Period profits/losses | 7,968 | 2,961 | 5,008 | 169.15% |
| Total accumulated profits/losses | 20,282 | 14,918 | 5,364 | 35.96% |

The FTA transition fund covers any differences that may have occurred when the international accounting standards were first adopted on 1st January 2004 and was changed for the actual application of the IAS 32 and 39 standards on 01/01/05 when assessing financial assets available for sale, in accordance with the IFRS 1 accounting standard.

The available reserve of undivided profits increased by Euro 86 thousand due to the effect of undistributed profits in the previous period.

28 Dividends paid

On the basis of the results of the 2006 period, which confirm the Veronese Group's ability to generate positive income margins, the distribution of an ordinary dividend of Euro 0.29 per share, for total amount to Euro 2,604 thousand, with coupon detachment on 14 May 2007 and payment on 17 May 2007, was approved at the Shareholders' Meeting on 30 April 2007.

29 Financing

The total amount to € 284 thousand. € 232 thousand of this point refers to the registration of the amount of debt funding determined by property leasing in accordance with the financial method.

A further medium-term debt towards a banking institute of € 52 thousand was also registered.

| <i>Financing</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|--|-------------------|-------------------|-------------------|----------------|
| Due to banks after 12 months | 52 | 52 | 0 | 0.06% |
| Sums due to other financing institutions after 12 months | 232 | 255 | (23) | (9.11%) |
| Total | 284 | 308 | (23) | (7.56%) |

30 Liabilities due to deferred taxes

Deferred taxes amounted to Euro 3,507 thousand (Euro 3,546 thousand in the previous year) and took into account the taxable time differences resulting from time differences of the accounting value of an asset or liability compared to its recognised value for tax purposes. In particular they mainly referred to the fiscal effect of adjustments made at the FTA, the taxation of which was deferred to future periods.

Subsequent to the reduction in IRES and IRAP tax rates, liabilities due to deferred taxes have been adjusted and have brought about an amendment in debit reduction of Euro 540 thousand.

31 Employees' leaving entitlement and quiescence reserves

| <i>Employees' leaving entitlement and quiescence reserves</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|---|-------------------|-------------------|-------------------|----------------|
| Employees' leaving entitlement (TFR) | 6,293 | 6,895 | (602) | (8.73%) |
| Fund due to director end of term of office treatment | 46 | 19 | 27 | 145.21% |
| Other quiescence reserves | | 2 | (2) | (100.00%) |
| Total | 6,339 | 6,915 | (577) | (8.34%) |

The point concerning the TFR Fund shows the movements resulting from annual allocations made on the basis of the evaluations of external actuaries and the uses carried out concerning end of working contract resolutions or advance payments.

| <i>Employees' leaving entitlement</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|---------------------------------------|-------------------|-------------------|-------------------|----------------|
| Balance at 1 January | 6,895 | 6,262 | 633 | 10.11% |
| Actuarial (gain)/loss | (633) | (143) | (490) | 343.20% |
| Allocation of period | 395 | 1,159 | (763) | (65.87%) |
| Utilisation | (365) | (383) | 18 | (4.74%) |
| Closing balance | 6,293 | 6,895 | (602) | (8.73%) |

In 2007 modifications in the Italian Severance Pay laws came into force. The effects on the profit and loss account are shown in the previous note relating to labour costs.

In order to carry out the mathematical evaluation, the database of each employee (salary, matured TFR net of any advance payments, age, sex, qualification, etc.) was given to the external actuaries by the companies' qualified offices. The hypothetical specifications on the employees in service regarding both their demographic evolution and their future economic characteristics, were calculated on the basis of some past company series, on similar experience and on market figures as well as on the basis of some indications supplied by the companies themselves in terms of their experience and sensitivity to company events.

In particular, in determining the present value of future services that are expected to be necessary in order to settle obligations deriving from working activities carried out in the current period and previous periods, the following were calculated:

- the present value regarding future forecasted services relating to working activities carried out in previous periods;
- the welfare cost regarding present work services, i.e. the increase in the present value of obligations resulting from work being carried out in the current period;
- the interest allowed given by the increase that the present value of the obligations is subject to during a period because of the fact that the date of payment of a benefit becomes one period closer.

The results of the mathematical evaluations on the basis of the IAS for TFR at 31/12/2007 are shown below:

| <i>TFR on the basis of IAS at 31/12/2007</i> | <i>Previous years' cost</i> | <i>Current year's cost</i> | <i>Current year's interests allowed</i> | <i>Actuarial gain (loss)</i> |
|--|-----------------------------|----------------------------|---|------------------------------|
| 6,293 | 5,897 | 112 | 283 | 633 |

The following table shows the effects on the fund during the period due to director end of term of office treatment.

| <i>Fund due to director end of term of office treatment</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|---|-------------------|-------------------|-------------------|----------------|
| Balance at 1 January | 19 | 173 | (154) | (89.16%) |
| Accruals | 27 | 26 | 1 | 3.89% |
| Utilisation | 0 | (180) | 180 | (100.13%) |
| Closing balance | 46 | 19 | 27 | 145.21% |

32 Commercial debts

The entire point amount to Euro 4,346 thousand and shows the following trend:

| <i>Commercial debts</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|--------------------------------------|-------------------|-------------------|-------------------|----------------|
| Debts towards suppliers | 3,852 | 4,210 | (358) | (8.51%) |
| Payments on account received | 170 | 112 | 58 | 52.43% |
| Accrued expenses and deferred income | 324 | 302 | 23 | 7.47% |
| Total Commercial debts | 4,346 | 4,623 | (277) | (5.99%) |

Debts towards suppliers are referred to as current debts for supplies of goods and services received, including those regarding investments in intangible assets.

| <i>Accrued expenses and deferred earnings</i> | <i>31/12/2007</i> | <i>31/12/2006</i> | <i>Variations</i> | <i>%</i> |
|---|-------------------|-------------------|-------------------|--------------|
| Accrued liabilities | 4 | 6 | (2) | (27.49%) |
| Deferred earnings | 320 | 296 | 24 | 8.18% |
| Total | 324 | 302 | 23 | 7.47% |

The deferred income refers almost entirely to income that was already invoiced regarding annual ordinary maintenance contracts on user licences and mainly pertaining to next financial period.

33 Tax debts

The taxation debt point regards debts that the various companies of the Group included in the consolidation area have incurred with the inland revenue. This registration is made up of income tax debts net of advances paid, value added tax and to activities of tax substitution made by the various companies regarding their respective employees and collaborators.

At the time of drafting this balance there were no legal cases pending with the Financial Authorities.

34 Short-term financing

This point is made up of Euro 983 thousand from short-term funding to banking institutions outstanding at account and of Euro 34 thousand from debts within 12 months for financial leasing.

35 Other debts

Details of other debts are as shown:

| <i>Other debts</i> | 31/12/2007 | 31/12/2006 | Variations | % |
|---|--------------|--------------|------------|--------------|
| Social security charges payable | 2,580 | 2,314 | 266 | 11.48% |
| Towards directors | 106 | 131 | (26) | (19.48%) |
| Dividends to be distributed to shareholders (third parties) | 127 | 152 | (24) | (16.13%) |
| Towards staff for deferred salaries and pay | 4,114 | 3,849 | 265 | 6.88% |
| Other | 31 | 52 | (21) | (40.58%) |
| Total | 6,957 | 6,497 | 459 | 7.07% |

Debts towards welfare institutions included matured contributory debts on current monthly salaries as well as the quota for deferred maturing salaries.

Staff debts refer to the current salaries for December 2007 and to accruals for deferred salaries that matured at the same date.

| <i>Debt towards staff for wages and deferred pay</i> | 31/12/2007 | 31/12/2006 | Variations | % |
|--|--------------|--------------|------------|--------------|
| Wages and expense accounts | 1,193 | 1,044 | 149 | 14.28% |
| Production incentives | 69 | 157 | (88) | (56.21%) |
| holidays | 2,117 | 1,954 | 163 | 8.34% |
| year-end bonus | | | | |
| summer bonus | 736 | 694 | 41 | 5.93% |
| Total | 4,114 | 3,849 | 265 | 6.88% |

36 Consolidated net financial position

The consolidated net financial availability was still positive at the end of the year 2007 despite having paid a total of Euro 2,604 thousand in ordinary dividends to shareholders, in accordance with the decision made at the shareholders' meeting on 30th April 2007.

The amount of cash-on-hand at 31/12/2007 was Euro 12,080 thousand, compared to euro 8,391 thousand at 31/12/2006, growing of Euro 3,689 thousand and net financial availability was Euro 11,796 thousand compared to Euro 8,084 thousand at 31/12/2006.

In particular, cash-on-hand and in bank accounts came to Euro 10,645 thousand. Capitalisation insurance policies of Euro 2,452 thousand were contractually available on 20-day prior request without any significant tax expenses.

Short-term debts towards banks regard overdrawn accounts advances subject to final payment.

| <i>Variation in net financial position/(indebtedness)</i> | 31/12/2007 | 31/12/2006 | Variations | % |
|---|---------------|--------------|--------------|---------------|
| Cash-on-hand and at bank | 10,645 | 3,333 | 7,312 | 219.41% |
| Capitalisation insurance policies | 2,452 | 6,197 | (3,744) | (60.42%) |
| Payables due to banks current portion | (1,017) | (1,138) | 121 | (10.61%) |
| Net short-term financial position/(indebtedness) | 12,080 | 8,391 | 3,689 | 43.96% |
| Long-term loans | (284) | (308) | 23 | (7.56%) |
| Net long-term financial position/(indebtedness) | (284) | (308) | 23 | (7.56%) |
| Net financial position/(indebtedness) | 11,796 | 8,084 | 3,712 | 45.92% |

As a link between the data of the net financial position statement and the balance statement, it is hereby reported that: cash in bank accounts and capitalisation insurance policies are registered in the patrimonial status as “Cash and other equivalent assets”; short-term financial debts are registered as “Payables due to banks current portion”; long-term financing is registered in the patrimonial status as “Long-term loans”.

The increase in financial availability is mainly generated by positive cash flows from operational management (Euro +5,518 thousand) and by investment activities (Euro +465 thousand) partially absorbed by financing activities (Euro –2,294 thousand).

Please refer to CAD IT Group’s financial report for cash flow details.

37 Transactions with related party

Relations between the Group’s companies are administered on the basis of contractual relations drawn up by the respective administrative organs bearing in mind the quality of the assets and services involved and the competitive conditions of the market adapting the interests of the Group.

The summary of income and costs, despite the credit and debit position at 31st December 2007 between the Group’s subsidiaries, is shown in the specific note on management relations.

The following table shows the incidence of transactions with correlated parties on the respective balance entry:

| Transaction incidence with correlated parties | Total | Correlated Parties | |
|---|---------|--------------------|-----------|
| | | Absolute value | % on Tot. |
| A) Transaction or position incidence with correlated parties on entries in the Profit and Loss account | | | |
| Income from sales and services to third parties | 58,256 | 805 | 1.38% |
| Increases in intangible assets due to internal work | 2,335 | 832 | 35.64% |
| Third party service costs | 10,002 | 138 | 1.38% |
| Labour costs | 30,999 | 501 | 1.62% |
| Other administrative expenses | 2,499 | 1,082 | 43.30% |
| B) Transaction or position incidence with correlated parties on entries in the Patrimonial situation | | | |
| Commercial credits and other credits | 29,695 | 283 | 0.95% |
| TFR and pension funds | 6,339 | 67 | 1.05% |
| Commercial debts | 4,346 | 101 | 2.32% |
| Other debts | 6,957 | 68 | 0.98% |
| C) Transaction or position incidence with correlated parties on financial flows | | | |
| (Increase)/Decrease in circulating credits | (3,442) | (248) | 7.22% |
| Increase/(Decrease) in debts towards suppliers | (300) | (22) | 7.38% |
| Increase/(Decrease) in other non-financial debts | 459 | (49) | (10.73%) |

Except for the above-described relations, no further significant relations of an economical-patrimonial nature are kept with other correlated parties.

Third party revenues regard services carried out on behalf of Xchanging which holds a 10% share in CAD IT and the associate company Sicom S.r.l.

Increases in internal work concern, as already shown in note 14 above, activities commissioned by CAD IT to subsidiaries for the development of software procedures capitalised by the Head Company.

Service costs from third parties towards correlated parties include remunerations to CAD IT auditing board

members that the latter and the Group's companies have sustained, those relating to translation and language training services supplied by a company in which one CAD IT director holds a share as well as rents for properties belonging to the partner of one of the CAD IT directors.

Labour costs to correlated parties regard remunerations to employees of the Group's companies who have a family relationship or affinity with the CAD IT directors and those managers with strategic responsibilities.

The other administrative expenses relating to correlated parties concern remunerations for the position of director given to CAD IT directors as well as to directors of the other Group companies having a family relationship or affinity with them.

38 *Relations with administrative and managerial organs*

The salaries for any main company or direct or in direct subsidiary company title given to the members of the Board of Directors and auditing board and to the managers with strategic responsibilities are shown in the following table⁴, in accordance with art. no. 78 of Consob regulation no. 11971 of 14th May 1999, and subsequent modification and integration.

During 2007 financial period, the manager responsible for drafting the accounting documentation was nominated, with duties assigned beginning as of 1st July 2007, in accordance with law no. 262 of 28th December 2005 regarding "Instructions for the safeguarding of savings and financial market discipline."

⁴ in accordance with sheet 1, attachment 3c, of Consob Regulation no. 11971)

| Total | | | | | 567 | 80 | 3 | 466 | - |

The remunerations for this position include specific emoluments decided by the meeting even if they have not been paid, tokens for participating at company meetings and any lump-sum expense reimbursements.

Bonuses and other incentives include the variable part of emoluments in relation to reaching the objectives set by the remuneration committee, as established during the meeting.

Other remunerations include emoluments for positions in subsidiary companies, employee salaries (gross of welfare and tax costs to be paid by the employee, excluding those obligatory collective welfare costs to be paid by the company and put aside in the TFR fund) and all other remunerations deriving from other services supplied.

Severance pay includes redundancy pay.

Non-monetary benefits include fringe benefits (according to a tax criterion) including any insurance policies.

At the moment there are no ongoing stock option plans.

Shares held by administrative and managerial organs are shown in the specific point regarding management relations.

39 *Important events since 31st December 2007*

Subsequent to 31st December 2007, there have been no events of particular importance to significantly influence the shareholders' equities or economic results of the Group.

For further information on the foreseeable development of management, refer to the management report in the specific paragraph.

40 *Warranties*

The credit lines granted by banks but currently not utilised are guaranteed by mortgages of € 12,395 thousand on buildings.

41 *Other information*

There have been no transactions or any non recurrent significant events, as defined in the Consob DEM/6064293 communication, in the present financial period or the previous one.

CAD IT and the Group's companies have not drawn up any contracts containing clauses that depend on continual financial funding (covenant) nor any agreements where a subject – to whom a loan has been granted – must behave accordingly (*negative pledge*).

The present annual report was approved by the CAD IT S.p.A. Board of Directors on 26/03/2008.

CONSOLIDATED BALANCE DECLARATION IN ACCORDANCE WITH ART. 81-TER OF CONSOB REGULATION NO. 11971 OF 14TH MAY 1999 AND SUBSEQUENT MODIFICATIONS AND INTEGRATIONS

1. The undersigned, Giuseppe Dal Cortivo, Chairman of the CAD IT S.p.A. Board of Directors, and Maria Rosa Mazzi, the manager responsible for drafting the CAD IT S.p.A. company accounting documents, hereby declare, bearing in mind the content of art. 154-bis, paragraphs 3 and 4 of legislative decree no. 58 of 24th February 1998 in terms of:
 - the adequacy in relation to the characteristics of the company and
 - the effective application,of the administrative and accounting procedures for drafting the consolidated balance during the 2007 financial period.

2. Furthermore, it is hereby declared that the CAD IT S.p.A. consolidated balance for the financial period ending on 31st December 2007, which reports a consolidated total credit of Euro 89,460 thousand, a net consolidated profit of Euro 8,544 thousand and a net consolidated patrimony of Euro 63,421 thousand:
 - a. corresponds to the results in the company books and accounting documents;
 - b. has been drafted in accordance with the international accounting standards (IFRS) – adopted by the European Union – and, as far as is known, is a suitable document to supply a true and correct representation of the patrimonial, economical and financial situation of the company and the companies included in the consolidation.

Verona, 26 March 2008

Giuseppe Dal Cortivo
On behalf of the Board of Directors
The Chairman

Maria Rosa Mazzi
Manager in charge of drafting
the CAD IT S.p.A. accounting documents

**Report of the auditors in accordance with
article 156 of legislative decree n. 58 of 24 February 1998**
(This report has been translated from the original Italian text
which was issued in accordance with the Italian legislation)

To the shareholders of
CAD IT S.p.A.

1. We have audited the consolidated financial statements, including balance sheet, profit and loss, movements of equity, cash flow statement and Directors' Report, of CAD IT S.p.A. and its subsidiaries (CAD IT Group) as at and for the year ended December 31st, 2007. These financial statements are the responsibility of the parent company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standards recommended by Consob, the Italian Commission for Listed Companies and the Stock Exchange. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement and are, as a whole, reliable. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

For our opinion on the consolidated financial statements of prior year, which are presented for comparative purposes as required by the law, reference should be made to our report dated April 12th, 2007.

3. In our opinion, the consolidated financial statements of CAD IT S.p.A. as at and for the year ended December 31st, 2007 comply with the International Financial Reporting Standards adopted by European Community, as well as to the measures issued for the implementation of the art. 9 of the Legislative Decree n. 38/2005; therefore they are clearly stated and give a true and fair view of the financial position, the results, the movements of equity and the cash flows of the CAD IT Group for the year then ended.

Verona, April 11th, 2008
